

MOTOAMERICA TECHNICAL BULLETIN

06-2016

UPDATED Technical Bulletin 06-2016 **Updates in red**

06-14-2016 Until further notice, MotoAmerica is placing a temporary ban on aftermarket oil filters for the 2015-16 Yamaha R1 (all models) pending investigation. As of today 4/14/16 all 2015-16 Yamaha R1 must use an OEM oil filter.

01-30-2018 After an extensive investigation and improvements to the manufacturing of K&N oil filters, MotoAmerica is removing the ban on K&N filters and they can now be used in all applications. K&N released a recall notice on KN-204 filters manufactured between March 1 and September 30, 2016. Along with the recall, the design of the filters was improved. K&N has gone above and beyond to ensure their product meets and exceeds the demands of racing.

All teams should possess the correct tools and torque specifications to install oil filters and prevent the distortion of the gaskets. Filters must be safety wired.
