

# MOTOAMERICA TECHNICAL BULLETIN

## 02-2017

---

The following changes to the KTM RC Cup Technical Regulations are effective immediately:

1. Competitors may remove the throttle restrictor plate.
2. The catalytic converter may be replaced with KTM exhaust adapter P/N 90805908000. This item must be purchased at a KTM dealer or in the event of a crash purchased at the track.
3. If throttle restrictor plate and catalytic converter are removed, the software in the ECU must be updated by KTM. The software is free of charge when conducted at the track. Contact Uli Toporsch [UToporsch@ktmnorthamerica.com](mailto:UToporsch@ktmnorthamerica.com) for more information.
4. **The minimum weight is reduced from 141kg (310.8lb) to 140kg (308.6lb) due to the change to the exhaust.**
