

MOTOAMERICA TECHNICAL BULLETIN

07-2019

MotoAmerica Junior Cup Teams

Due to a security issue found, effective immediately Kawasaki machines using Flash Tune (FT ECU) Map **EX400 21175-1371 (US)-MAspec.ftm** must update their ECU to **EX400 21175-1371 v2 (US)-MAspec.ftm**. All settings may be saved and transferred to the new firmware. Machines will perform exactly as before the firmware update. Additional tuning will not be required. If the ECU is not updated it will fail technical checks and result in a penalty.

As a reminder to all JRC competitors if you choose to flash the ECU you must use an approved flash listed on the 2019 FIM Approved Parts List "MotoAmerica Junior Cup Software" (download link here: <http://www.americanmotorcyclist.com/Racing/Story/road-racing-rules>)

If you have questions or comments, please contact technicaldirector@motoamerica.com.
