

As the 2016 KTM RC 390 Cup bike includes a slipper clutch, MotoAmerica and the AMA have modified the technical regulations to allow for all 2015 KTM RC 390 Cup bikes to update their clutch to the 2016 parts.

The following parts are authorized for use in 2015 KTM RC Cup motorcycle. These parts will add a back torque limiting device to the clutch assembly. Both clutch types (2015 OEM assembly and new assembly described below) will be acceptable for use during the 2016 Season. No other modifications can be made to the clutch parts and aftermarket back torque limiters have not been authorized for use.
