

MOTOAMERICA TECHNICAL BULLETIN

04-2019

All MotoAmerica Twins Cup Teams

Due to recent manufacturer interest in providing braking system components, MotoAmerica has decided to reopen the manufacturer approval process between the dates of 4/15/2019 – 4/29/2019. Once the approval process is complete there will be a 30-day waiting period to allow all competitors to procure the newly approved braking systems. The 2019 FIM Approved list will be updated 4/29/2019 and the parts will be legal for use at Round 4 Road America.

Until this process is complete competitors must still follow the current regulations in section 2.8.10.7.

Brake Manufacturers: If you are the manufacturer of braking systems and would like your products considered for approval contact MotoAmerica Technical Director at technicaldirector@motoamerica.com.
